PRICE  
LIST

The Neosho Nurseries Co.  
Fall 1928  
Neosho, Missouri

"Yours For Growing Satisfaction"

PRICES: These prices are f. o. b. Neosho, except as noted, and are subject to change without notice.

PREPAID PARCEL POST: For the convenience of our customers we have put in prices by Prepaid Mail. The tops of many items will be pruned before shipment but not as much as you should cut them back after planting.

QUANTITY RATES: Apply on trees or plants of one class or kind. For instance, 25 apple or crabapple of one or more varieties entitles you to the 25 rate. 25 shrubs of one or more varieties entitles you to the 25 rate. But 5 apple, 5 peach, 5 plum, 5 pear and 5 cherry would take the 5 rate.

SPECIAL QUOTATIONS ON LARGE QUANTITIES: If you require larger quantities than are quoted herein, send us your list, giving the number required of each variety, for our quotation. We make a specialty of supplying orchardists and nurserymen.

REPLACEMENTS: Any stock that fails to grow the first season will be replaced at half-price if reported by November 1st following planting.

WHEN WE CAN SHIP: Fall Bulbs, Iris, Evergreens, Peonies and Perennials can be shipped in September, other stock the last of October.

WHEN TO PLANT: In districts where zero temperatures are common or the winters are cold and dry, spring is the time to plant. Otherwise fall planting is preferable because some root development will be made and the plant will be ready to start growth as soon as spring comes. Around Kansas City and south, fall is usually the best time.

BUY FRUIT TREES BY DIAMETER

When you plant fruit trees you must cut off 1/3 to 1/2 of the top. What you then have left is the part that counts. Therefore we grade and sell them by diameter of the trunk measuring two inches above the ground. If you prefer the largest size 1 yr. apple graded by height only we could send you 4 to 5 ft. trees less than 1/4 inch in diameter, whereas the 1/2 inch up is really the largest size.

APPLE AND CRABAPPLE

Two-Year—2-yr. top, 2 yr. roots		Each	5	25	100

2 to 3 ft. . . . .		.40	.30	.25

TRIPLE THE LIFE OF YOUR GRIMES TREES by planting our double-worked trees. The Grimes part is budded about 18 inches from the ground on a hardy variety not susceptible to collar-rot. These Double-worked Grimes have roots and stock that are two seasons growth. Prices are the same as for two-year apple.

RICHARED (Trade Marked) DELICIOUS

This strain of common Delicious colors up a solid red two or three weeks earlier but is identical in flavor, size, shape and texture. The Richared originated near Wenatchee, Washington, in the orchard planted in 1910 of G. T. Richardson. Trees grown from this original tree have borne fruit true-to-strain.

Wherever the common Delicious thrives, this Richared will prove more profitable because it can be picked and marketed two weeks earlier with solid red color. Windfalls are avoided and the keeping quality is better.

Purchasers are required to sign an agreement not to sell or give away or dispose of any buds or scions from these trees.

PRICES OF RICHARED DELICIOUS		Each	5	25	50	100	250
Diameter	Height	Rate	Rate	Rate	Rate	Rate	Rate
1/2 in. up	4 ft. up. . . . .	\$.140	\$.120	\$.100	\$.090	\$.080	\$.070

1/4-3/8 in.	2 ft. up. . . . .	1.00	.75	.70	.65	.60	.50

NOVELTY APPLE TREE

FIVE VARIETIES ON ONE TREE

We have a limited number of apple trees with from 3 to 5 different varieties budded on as many different branches.

These varieties ripen from early summer to late fall—Duchess, Wealthy, Grimes Golden, Jonathan and Delicious—all dependable, high grade apples.

These trees are 3 yrs. old with trunks 1/2, 3/4 and 1 inch thick.

PRICES—F. O. B. Neosho, cash with order. Satisfaction guaranteed upon arrival.

5 Varieties on one tree, \$2.00

4 Varieties on one tree, \$1.75

3 Varieties on one tree, \$1.50

EVERGREENS

Neosho Evergreens are carefully hand dug, the balls of earth wrapped with burlap. Frequent transplantings with root prunings in the nursery row develop a mass of fibrous feeding roots within the ball.

OUR GUARANTEE is to deliver good, thrifty specimens that will meet your approval on arrival. There is Positively no guarantee as to growth.

AMERICAN GLOBE ARBOR VITAE (Thuja Occidentalis Globosa). 12-15 in. spread, \$3.50; 18-24 in. spread, \$5.00.
